PROFESSIONAL OVERVIEW

Full Stack Developer with hands-on experience delivering real-world products. These range from jewelry e-commerce stores to travel social platforms. I build with React.js, Next.js, Node.js, and TypeScript, and I have integrated AI features like RAG pipelines and LLM APIs into production apps. I am comfortable working across the full stack, including responsive frontends, RESTful APIs, MongoDB/PostgreSQL databases, and cloud deployments. I follow Agile workflows and CI/CD practices. I care about performance, scalability, and clean code.

WORK EXPERIENCE

- FULL STACK DEVELOPER INTERN | ASW Technologies, Nagpur JUN 2025 – DEC 2025
- Built and maintained full-stack web applications from the ground up using the MERN stack. I managed everything from RESTful API design to MongoDB database management.
 - Implemented SEO improvements, such as SSR and meta tags. Deployed production apps on Vercel and Render with CI/CD pipeline setup.
 - Collaborated in Agile sprints throughout the entire development process. This improved code quality and performance by 20%.

PROJECTS

- TripSync - Travel Social Platform | [Github](#) JAN 2026 – FEB 2026
React.js, Firebase, Supabase, PostgreSQL
- Launched a responsive map-based travel site with real time location features and acquired 50+ active users.
 - Built features for smooth collaborative travel management such as expense splitting and group coordination
